

Natives:

Spring – Summer:

Mexican Hatplant (*Ratibida columnifera*)
Indian Grass (*Sorghastrum nutans*)
Little Bluestem (*Schizachyrium scoparium*)
Fragrant Mistflower (*Chromolaena odorata*)
Spotted Beebalm (*Monarda punctata*)
Salvia Coccinea
Texas lantana
Turks cap (*Malvaviscus arboreus*)
Lanceleaf coreopsis (*Coreopsis lanceolata*)
Plains coreopsis (*Coreopsis tinctoria*)
Indian Blanket (*Gaillardia pulchella*)
Purple Coneflower (*Echinacea purpurea*)
Gaura lindheimeri
False Indigo Bush (*Amorpha fruticosa*)
Native Gayfeather (*Liatris pycnostachya*)
Native gulfcoast Gulf Coast Muhly
Dwarf Barbados cherry (Year-round)
Frogfruit

Early spring into summer:

Horseherb (*Calyptocarpus vialis*) (year-round)
White Yarrow (*Achillea millefolium*)
Winecup (*Callirhoe involucrate*)
Skullcap
Prairie Fleabane (*Erigeron strigosus*)
Lyre-leaf sage

Native Trees:

Carolina Cherry Laurel (new in the last 2 years thanks to birds pooping! Some are dug up and moved to my nursery and some are getting pruned into round balls for more formality amongst the wild of the prairie.)
Mexican Plum
American Sweet Gum
Southern Magnolia

Non-natives for nectar:

Compact Porterweed
Thryalis
Hamelia patens (Honestly, I plant this for the humminbirds)
Firecracker Plant (*Russelia sarmentosa*)

Herbs as host plants:

Rue (year-round)
Fennel (year-round)
Dill (cool weather)
